GSM Construction Chemicals

GSM Ceramic Cleaner

Technical Datasheet

Product Description

GSM Ceramic Cleaner is a highly efficient, economically priced cleaning agent specifically formulated for cleaning ceramic tiles. This advanced acidic pH detergent-based cleaner is capable of tackling tough concrete, cement, or mortar build-ups, ensuring your tiled surfaces remain pristine and free from any residue. The option to add a foam agent enhances its effectiveness, creating a rich, thick foam that clings to surfaces for a deep clean.

Recommended Uses

- Ideal for cleaning ceramic tiles in residential, commercial, and industrial settings.
- Effective in removing construction residues such as concrete splatter, cement smear, and mortar accumulation.
- Suitable for routine maintenance and post-construction clean-up of tiled surfaces.

Features and Benefits

- Powerful Cleaning: Designed to cut through thick concrete, cement, and mortar residues with ease.
- Acidic pH Formula: The acidic nature helps in effectively breaking down stubborn deposits on ceramic surfaces.
- Economical: Offers a cost-effective solution for maintaining cleanliness in large and small tiled areas.
- Foaming Action: Can be enhanced with a foam agent for improved coverage and cleaning performance.
- Versatile Use: Suitable for a wide range of surfaces beyond ceramic, including porcelain and natural stone.

Application Instructions

1. Preparation: Remove loose debris and dust from the surface before application.
2. Dilution: Dilute GSM Ceramic Cleaner with water as recommended for light to heavy-duty cleaning tasks. For enhanced foaming action, add the specified foam agent according to product guidelines.
3. Application: Apply the solution to the affected area using a mop, sponge, or sprayer. For stubborn residues, use a stiff brush to agitate the surface.
4. Dwell Time: Allow the solution to sit on the surface for a few minutes to break down the deposits.
5. Rinsing: Thoroughly rinse the area with clean water to remove any remaining cleaner and loosened residue.

Storage and Handling

- Store in a cool, dry place, away from direct sunlight and extreme temperatures.
- Keep the container tightly closed when not in use to maintain product integrity.

Safety Precautions

- Wear protective gloves and eye protection during use to avoid skin and eye irritation.
- Ensure adequate ventilation in the area during application and rinsing.
- Refer to the Material Safety Data Sheet (MSDS) for detailed safety information.

Technical Support

For further assistance with GSM Ceramic Cleaner, including detailed application advice or questions about product compatibility, please contact our customer service or technical support team. We are committed to providing comprehensive support to ensure the effective and safe use of our products in your cleaning projects.

This technical data sheet for GSM Ceramic Cleaner provides essential information on its properties, application methods, and safety guidelines, designed to assist professionals and DIY enthusiasts in achieving effective, efficient cleaning of ceramic and other tiled surfaces.
